

Certificate of Liability Insurance

Liability certificate and schedule

Certificate of Liability Insurance. Named insured: Amrutha Meal Services Private Limited. Insurance provider: HarborPoint General Insurance Company Limited. Policy number: HPGL/2026/ST/24002. Policy period: 01 JUL 2026 - 30 JUN 2027. Country: India.

Declared business activity: Chilled meal preparation and delivery. This liability original is supplementary procurement evidence. Its attached schedules explain applicable operations, limits and conditions; a certificate heading alone does not replace those clauses.

The evidence records the supplier's stated cover; it does not confirm customer onboarding approval or guarantee payment of a claim. The policy schedule and endorsements must be read together when an operation is subject to a particular limit or condition.

Certificate of Liability Insurance

Original product-liability schedule

Original product-liability schedule issued 01 JUL 2026: annual aggregate limit INR 20,00,000. Product cover originally ends on 30 JUN 2027. These are the original terms, subject to the later signed amendments in this same certificate bundle.

The original schedule covers physical injury caused by supplied meals within the described business activity. It does not create a recall-expense allowance unless an endorsement states one.

Certificate of Liability Insurance

Renewal endorsement E1

Renewal endorsement E1 issued 15 MAY 2027. Effective 01 JUL 2027, it extends product-liability cover through 30 JUN 2028 and replaces the original expiry for that renewal period. It sets the annual aggregate at INR 30,00,000 from its effective date.

Endorsement E1 explicitly supersedes the original schedule for expiry and aggregate during the renewal period. Before 01 JUL 2027, the original aggregate remains in force. Other original conditions remain unchanged.

Certificate of Liability Insurance

Amendment E2 - effective date and precedence

Amendment E2 issued 20 MAY 2027. Effective 01 AUG 2027, it replaces E1's annual aggregate limit with INR 40,00,000. E2 does not change the renewal expiry of 30 JUN 2028.

Between 01 JUL 2027 and 31 JUL 2027, E1's INR 30,00,000 annual aggregate applies. From 01 AUG 2027, E2's INR 40,00,000 annual aggregate applies. These changes have explicit effective dates; choosing the latest issue date without considering the requested date is incorrect.
