

Supplier Registration Form

Registered particulars

Supplier Registration Form. Legal name: Dakshin Freight Services Private Limited. Trading name: Dakshin Freight. Country: India. CIN: U74999KA2020PTC190001. Incorporation date: 12 September 2020. Issuing registry: Registrar of Companies, India. Registration status: Active.

Registered office: Suite 11, Hebbal Business Park, Bengaluru, Karnataka 560024. Business activity: Road freight and warehouse handling. This form establishes the entity and the office used for statutory correspondence; operational schedules describe separate delivery and service arrangements.

The administrative contact routes procurement clarifications and maintains the submitted originals. A vendor-master entry is separate from reviewer approval. This supplier form makes no statement that the customer's onboarding review has completed.

Supplier Registration Form

Operational locations and dispatch

Warehouse receiving location: Dock 4, Hoskote Freight Park, Bengaluru, Karnataka 562114. The registered office is not a receiving dock. Dispatch coordinators book a warehouse slot before sending a vehicle.

The service portfolio includes road transit, storage in approved warehouses and subcontracted line-haul carriage. These are separate insured operations, rather than a single interchangeable coverage limit.

Delivery discrepancies are recorded against the consignment and the booked slot. A receiving acknowledgement records quantity and condition at the dock; it does not certify insurance adequacy.

Supplier Registration Form

Payment administration

Payment terms: Net 45 days from accepted invoice. Acceptance requires a matched consignment receipt and the supplier's invoice. The dispatch booking date does not start the payment clock.

Document routing: the warehouse team records receipt; procurement handles service exceptions; AP checks invoice completeness. Urgent dispatch instructions do not amend the agreed payment terms.

The supplier has not submitted bank account details or an external rating within this evidence set. These must be collected and reviewed through the customer's normal workflow.
