

Certificate of Liability Insurance

Liability certificate and schedule

Certificate of Liability Insurance. Named insured: Dakshin Freight Services Private Limited. Insurance provider: HarborPoint General Insurance Company Limited. Policy number: HPGL/2026/ST/24001. Policy period: 01 JUL 2026 - 30 JUN 2027. Country: India.

Declared business activity: Road freight and warehouse handling. This liability original is supplementary procurement evidence. Its attached schedules explain applicable operations, limits and conditions; a certificate heading alone does not replace those clauses.

The evidence records the supplier's stated cover; it does not confirm customer onboarding approval or guarantee payment of a claim. The policy schedule and endorsements must be read together when an operation is subject to a particular limit or condition.

Certificate of Liability Insurance

Road transit clause

Road transit limit: INR 20,00,000 per consignment. This limit applies to goods during the declared road journey and is separate from warehouse storage and subcontractor limits.

Transit deductible: INR 25,000 per claim. A consignment docket and receipt at destination are needed for claim notification. A vehicle carrying several consignments does not turn the per-consignment limit into an annual aggregate.

A claim notification must identify the journey, consignment and observed loss. Delivery delays without physical loss are excluded; no promised delivery-time guarantee is created by this certificate.

Certificate of Liability Insurance

Warehouse storage clause

Warehouse storage limit: INR 50,00,000 per occurrence at an approved warehouse. This is the storage limit; do not apply the road-transit per-consignment limit to stock already received at the warehouse.

Storage deductible: INR 40,000 per claim. Inventory records and a receiving acknowledgement support identification of stored goods. The approved-warehouse condition remains applicable even if a consignment was previously covered in transit.

The certificate does not provide separate site-specific asset valuations. The storage limit is not a statement of stock value or a bank balance.

Certificate of Liability Insurance

Subcontracted carriage condition

Subcontracted carriage sublimit: INR 10,00,000 per consignment. Cover for a subcontracted journey applies only when the carrier is named on the approved-carrier register before dispatch.

A carrier that is not named on the approved-carrier register is outside the stated subcontracted-carriage cover. Booking a warehouse slot does not add a carrier to that register.

No approved-carrier register is supplied here. A subcontractor's identity or current approval cannot be inferred from the certificate, so the customer must obtain that evidence before relying on this condition.
